

FLIGHT INSTRUCTOR RESOURCES

CFI teaching tools are entering the pattern.

FlightFuel CFI resources are being shaped for instructor applicants who need to teach clearly, analyze errors, manage risk, and turn knowledge into useful cockpit coaching.

TEACHING CUES

What is coming

Expect practical CFI guides for fundamentals of instruction, lesson planning, endorsements, risk management, common student errors, maneuver teaching scripts, and oral exam scenario practice.

INSTRUCTOR KNOWLEDGE

- FOI concepts translated into usable explanations and examples.
- Endorsement logic, student eligibility, solo rules, and recordkeeping.
- Scenario-based oral prep for the Flight Instructor Airplane ACS.

TEACHING PRACTICE

- Lesson plan structures that are concise, teachable, and checkride ready.
- Common student mistakes with instructor-level diagnosis and correction.
- Risk management prompts for preflight, maneuver, and landing lessons.

RESOURCE PIPELINE

FOI

Learning process, barriers, critiques, and instructor responsibilities.

LESSONS

Ground and flight lesson plans built for real teaching flow.

ENDORSE

Required endorsements, limitations, and recordkeeping reminders.

ANALYZE

Error detection, correction, risk cues, and student coaching.

BUILT FOR

CFI applicants, new instructors, and pilots preparing to explain instead of recite.

TONE

Clear, practical, and instructor-minded, with emphasis on teachable cockpit language.

STATUS

This category is being prepared for release as a dedicated FlightFuel.us track.
